Letter of reference

Sołtysiński Kawecki & Szlęzak law office cooperated with Datapoint with regards to the project which required sharing documents with external parties in a highly secure and controlled environment. The Company decided to use a dedicated software i.e. a Virtual Data Room.

Virtual Data Room (VDR) fully met our expectations. The application allowed to present data in a clear form and to safely share it with external parties. Users invited to the data room had a possibility to analyze documents from any place. The only thing needed was an Internet connection and a web browser.

The huge advantage of the system is that it is very intuitive and user friendly . Files upload, inviting users and assigning access rights for files is simple and rapid. Datapoint team assisted in document preparation as the VDR management came down to a few mouse clicks.

We highly appreciate the cooperation with Datapoint Team and the use of the system they offer. We will recommend it to our clients In future projects involving secure share of documents.

Regards,

Krzysztof Cichocki

RADCA PRAWNY

Sołtysiński Kawecki & Szlęzak is one of the leading law firms in Poland, serving both Polish and foreign businesses. The firm employs currently over one hundred attorneys and provides highest standard of legal services in all facets of business activity. Combining theoretical reflection on law (it employs several one-time and current academic authorities on Polish law) with focused emphasis on practical solutions, SK&S are uniquely equipped to deal effectively with most complicated legal issues present in complex business transactions.
